# MULTICORE® LEAD-FREE SOLDER PASTES

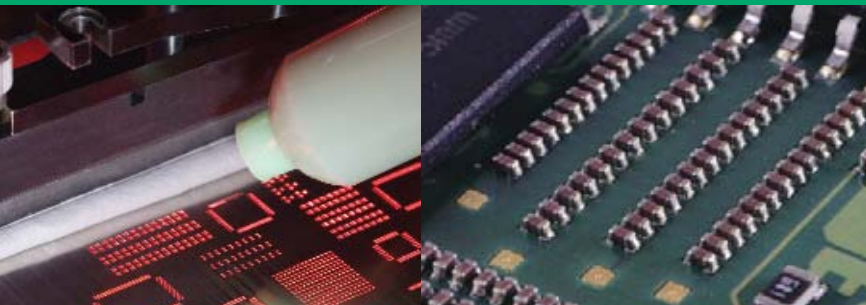

**Henkel**

As the most trusted brand in soldering, Henkel's Multicore® line of lead-free solder paste materials offers the performance, reliability and material set compatibility required to meet the diverse manufacturing requirements of today's leading electronics companies. Multicore® lead-free solder pastes deliver exceptional, consistent performance regardless of global climatic conditions. Because our product portfolio has been optimized with high humidity resistance in addition to outstanding processability and performance, leading electronics firms can confidently deploy Multicore® materials in their facilities worldwide. For maximum ease-of-use, cost-efficiency, high reliability, RoHS compatibility and exceptional in-field performance, there is only one brand to trust for lead-free solder paste –

**Multicore®.**

**Across the Board,  
Around the Globe.**
