

Naturally Innovative

MIRAFOIL™ SERIES COATINGS

Henkel Corporation proudly introduces the new MiraFoil™ coating that enhances the brilliance of your printed surface and looks better for less. Discover the revolutionary approach and appeal of MiraFoil™ coating.

BENEFITS of MiraFoil™ coating:

- Eliminates offline lamination or foil stamping
- No more warehousing and lead time as with laminated foil stocks
- Metallic areas are applied selectively as needed and at normal printing press speeds
- Reduces converting steps due to its “foil-on-demand” capability
- Environmentally friendly and recyclable
- Great for folding cartons, labels, direct mail, and other packaging and printing applications

For more information on MiraFoil™ coating and how it can benefit you, please contact Customer Service:

Phone: 1.800.888.4910

Email: dennis.drummond@us.henkel.com

Henkel coatings used in the production of this piece are MiraFoil™ coating in combination with Henkel U.V. Overprint coating Miracure™ UVG 1037D1.
